

Black Hole Pipeseam (broken) instructions

step 1

step 2

Pre-shape and glue together part 1. Then cut out and fold part 2 like a harmonica, following the fold lines.

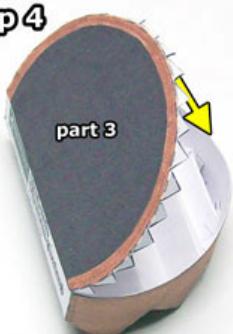

step 3

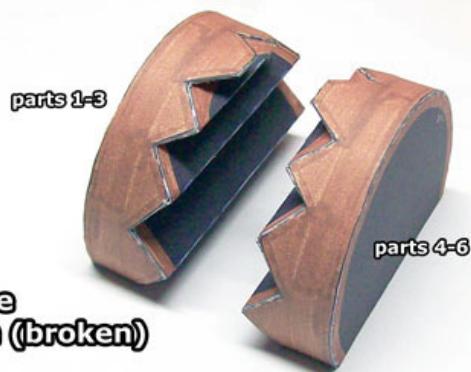

Take your time to glue part 2 to the "jagged" end of part 1 as shown here.

step 5

step 4

Glue the bottom of part 3 to the open back of part 1, and then fold it over to close it.

Black Hole Pipeseam (broken)

Do the same for parts 4-6 to make the other half of the broken pipeseam.

Thank you for building a Ninjatoes' papercraft model!
